

Yale and I.D. Systems Promote Wireless Fleet Management

I.D. Systems, Inc. (Hackensack, N.J.) and **Yale Materials Handling Corp.** (Greenville, N.C.) a unit of NACCO Materials Handling Group, Inc. (Portland, Ore.) announced a joint promotion of I.D. Systems' Wireless Asset Net vehicle management system. LD. Systems' wireless, RFID-based technology consists of vehicle-mounted computers, a wireless communication infrastructure and client-server software.

"The flexible functionality of I.D. Systems' wireless vehicle tracking and control technology gives Yale a unique opportunity to tailor fleet management solutions to fit diverse customer needs," said Bruce Pelynio, Yale Materials Handling Corp.'s director of aftermarket sales.
